Write a description of Inertia ball. Include the following in your description:

1. How does one play broomball?
2. What three things are the most difficult when it comes to handling the ball?
3. How can a player use the broom to overcome the difficulties mentioned in question 2? (What strategies would you recommend to a teammate?)
4. How does the ball move in the no-strike zone? What causes the motion of the ball in the no-strike zone?
